

P2P Funding Options

Disclaimer: Depending on the method used, wire transfers can take anywhere from several hours to several days (4-5 business days). To prevent delays and late fees, please initiate a transfer several days before a due date especially for international wire transfer (SWIFT) and U.S. domestic wire transfer (ACH or Fedwire). Eventual transfer fees, whether to or from your account, will be charged to your P2P account.

Funding by cash or cheque should be deposited directly to your nearest DBS branch or cash/cheque deposit machine.

1) International Wire Transfer (SWIFT)

Can be done from anywhere. Involves multiple bank charges, including a 5.00 SGD (or USD equivalent) receipt charge by DBS.

2) U.S. Domestic Wire Transfer (Fedwire) - USD only

If you are transferring funds from a U.S. based USD account this option allows you to pay your Silver Bullion order via a bank-to-bank domestic transfer in the United States providing a simple, reliable and less expensive way of initiating payments electronically.

Advantages:

- International wire transfer is a tedious and time consuming process and has to be done during the bank's business hours and sometimes even require your physical presence at the bank. A domestic interbank transfer can be easily made using your bank's mobile/internet banking services.
- International wire transfers are costly due to high banking fees. The domestic interbank transfer will cost a small fraction of an international SWIFT transfer.
- The transfer is easier for bank staff to process and therefore more reliable.

NOTE

- **Bidding closes at 23:00 hours SGT the day before Loan Start.** There will be a 1 hour non-bidding period before bidding for the next Loan Start begins.
- **Funds must be in your account by 12:01 AM SGT on the Loan Start Date.** You must have enough funds in your P2P Account to cover your payment / repayment commitments for the current Loan Start. Because a Loan Start Date can fall on a bank holiday(s) and international bank transfers are often delayed please fund your P2P account early.
- **As an alternative to sending funds,** or if you unable to do so in time, you can "roll-over" a loan, pending availability, by obtaining a new loan from a lender based on offered terms. Loans can be obtained up to 1 hour before Loan Start date.
- **Should funds in your P2P account be insufficient** to cover your loan commitments by 12.01 AM SGT on the Loan Start Date you will be charged a late fee of 1.5% of the outstanding balance at payment due date and for every loan period thereafter. In such a case the Reserve Fund will, pending funds availability, provide you with an intra-day loan to cover your payment commitments and prevent a contract breach.
- **If you require funds immediately** and have an upcoming valid loan contract, a **loan advance** can be arranged.
